DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 1-6, 9, 13-19, and 60-61 have been considered but are moot in view of the new ground(s) of rejection.

Claim Objections

2. Claim 13 is objected to because of the following informalities: Claim 13 is objected to under 37 CFR 1.75(i). The claim should provide indentation for each element. Where a claim sets forth a plurality of elements or steps, each element or step of the claim should be separated by a line indentation. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1-6, 9, and 60 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. More specifically, MPEP, section 2173.05(p) states, "A single claim which claims both an apparatus and the method steps of using the apparatus is indefinite under 35 U.S.C. 112, second paragraph." *Id.* Claim 1 and its dependent claims 2-6, 9, and 60 recite the **apparatus** including "a carton comprising: ...

a two-piece dispenser” and the **method** comprising the step of “after the first portion is detached”. Since claim 1 and its dependent claims 2-6 and 60 claim both an apparatus and the method steps of using the apparatus, these claims are indefinite.

5. Claims 13-19 and 61 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. More specifically, MPEP, section 2173.05(p) states, "A single claim which claims both an apparatus and the method steps of using the apparatus is indefinite under 35 U.S.C. 112, second paragraph." *Id.* Claim 13 and its dependent claims 14-19 and 61 recite the **apparatus** including “a blank capable of being formed into a paperboard carton... a two-piece dispenser” and the **method** comprising the step of “after the first portion is detached”. Since claim 13 and its dependent claims 14-19 and 61 claim both an apparatus and the method steps of using the apparatus, these claims are indefinite.

Claim Rejections - 35 USC § 101

6. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

7. Claims 1-6, 9, and 60 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. In particular, claim 1 is directed to neither a “process” nor a “machine”, but rather embrace or overlap two different statutory classes of invention set forth in 35 U.S.C. 101 which is drafted so as to set

Art Unit: 3651

forth the statutory classes of invention in the alternative only. See, MPEP, section 2173.05(p). In particular, claims 1-6, 9, and 60 recite both a process and a machine.

8. Claims 13-19 and 61 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. In particular, claim 1 is directed to neither a “process” nor a “machine”, but rather embrace or overlap two different statutory classes of invention set forth in 35 U.S.C. 101 which is drafted so as to set forth the statutory classes of invention in the alternative only. See, MPEP, section 2173.05(p). In particular, claims 13-19 and 61 recite both a process and a machine.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
